Dear Washoe County Registrar of Voters,

I live in Washoe County. Please make it easier for a voter to recognize a signature correction notice and find the instructions that apply to their mail ballot.

Please explain separately what to do when a signature is missing and when the office needs to confirm a signature. Put the due date, authorized response options, and the registrar’s contact information in the notice and on the county website. Please offer accessible instructions and a way to confirm that the office received the response.

After canvass, please publish or link aggregate counts for ballots flagged, corrected and counted, and unresolved. Where your office tracks missing signatures separately from disputed matches, please identify the two categories and the reporting date.

Thank you for making the process easier for voters to understand.

Sincerely,

Signature

Fact check

Nevada Revised Statutes § 293.269927 gives an otherwise eligible voter a chance to provide a signature or confirmation by 5 p.m. on the sixth day after the election. Washoe County’s Registrar of Voters publishes county instructions. Checked November 10, 2026.
